CJCU Campus Tour

Joy Chen

2013.10
Innovation & Incubation Center

- Located in the first Student Dorm, the center is the place where students can dream their dreams and make their dreams come true.
There are four student dorms at CJCU campus. They provide accommodation to more than 3,000 students while the rest stay in the boarding houses near campus or commute from home.
Computer Building

• The computer center is equipped with the cutting-edge facilities and it is also one of students’ hangouts.
CJCU Library

- Celebrating its fifth birthday, the CJCU Library is students’ favorite spot to read, watch movies, and hang out.
Teaching Building No.3

- There are three teaching buildings on campus. This is the newest one, and home to College of Management.
Teaching Building No. 2

- It’s a Cambridge-style architecture with a grassland courtyard in the center. The shepherd relief at the front is one of CJCU’s art masterpieces.
Field and multi-purpose basketball court

- To encourage students exercise and develop a healthy lifestyle, the courts are opened until 10:30 p.m.
A corner at the library

- The library has a collection of more than 400,000 books and references. The environment is quiet and inviting.
Burning, yet it was not consumed.

- The burning bush symbolizes the children of God who, although they go through persecution, suffering, calamities, and testing, radiate His glory from their lives.
• The best route to appreciate the library is to take the elevator to the 5th floor, visit the multi-media center, take the center stairs to see the burning bush sculpture on the 4th floor, and then to the third floor, second floor, and the ground floor.
Students’ favorite spot in the library

- The comfy couch for two persons is nicknamed “Lovers’ couch,” where a couple can enjoy their movies.
A rich collection of DVDs

- There are thousands of DVD for students to enjoy. Students can also make recommendation to the purchase of newly-released DVDs.
• Feeling tired after reading? Come and relax on this big couch while listening to your favorite radio station. BTW, CJCU has a student-run radio station, which provides 24/7 nonstop programs on air.
Library Restaurant

- The library provides food for your brain and the restaurant provides delicacies and drinks to your taste.
PE class

- A group of students are swinging their golf clubs.
- At CJCU every student is required to take two hours of PE class every semester.
Courtyard of the second teaching building

• The building reminds you of the ancient Cambridge architecture. It is the most beautiful academic architecture at CJCU.
Art Boulevard

- Between the second and third teaching buildings is the Art Boulevard, where students’ art work are on display.
We are to serve, not to be served. The sculpture of Foot-Washing

- The sculpture embodies the spirit of CJCU: we are to serve, not to be served. At the graduation ceremony, the chair of the board, President, and faculty representatives wash the feet of student representatives.
More facilities

- CJCU also provides a BBQ area so that students can hold parties to socialize with each other.
Art Building 游藝樓

- This is a place where artists are educated and cultivated.
Land Development Lab

- Part of Erjen River (二仁溪) runs through the campus. Hopefully, one day we can have a harbor on campus.
BBQ Area
More Art Pieces

- The sculpture of Three Wise Men
Open-air Café

- The name of the café is “find your happiness.”

(找到幸福)
Student Activity Center

• Student clubs play an important role in the university life. CJCU offers more than 100 student clubs for students to choose from.
Gymnasium

- The gymnasium also serves as a venue for concerts and events.
Congrats!

• The CJCU rugby team won the title of Asian University Rugby Championship in 2013.
